Carnation[3] (kaɪnēɪːʃən). Also 6 incarnacyon, coron-, cornation. [Some 16th c. authors give one form of the name as *coronation*, apparently from its 16th c. specific name, *Betonica coronaria*, in allusion to its use in chaplets (cf. CAMPION), or from 'the floures .. dented or toothed aboue .. like to a littell crownet' (Lyte). On the other hand, Turner calls the plant *an incarnacyon*, Lyte has *carnation* as well as *coronation*, and Gerarde expressly identifies it with the colour 'carnation'. Prior takes *coronation* as the original form, and Britten and Holland think his opinion 'probably correct'.

One or other name must have been due to popular mistake; *carnation* is alone found after 1600, and has apparently even modified the later application of 'carnation' as a colour-name: the flower, however, is not always of this colour: as Lyte says, 'some be of colour white, some carnation or of a liuely flesshe colour, some be of a cleare or bright redde, some of a darke or deepe redde, and some speckled'.]

Carnival (kā·ɪnivăl). Forms: 6 carnoval, carnevale, 7 carnevall, carnivall, 7–8 carnaval, 7– carnival. [a. It. *carnevale; carnovale* (whence F. *carnaval*), evidently related to the med.L. (11–12th c.) names *carnelevārium, carnilevāria, carnilevāmen*, cited by Carpentier in additions to Du Cange. These appear to originate in a L. **carnem levāre*, or It. **carne levare* (with infinitive used subst. as in *il levar del sole* sunrise), meaning 'the putting away or removal of flesh (as food)', the name being originally proper to the eve of Ash Wednesday. The actual It. *carnevale* appears to have come through the intermediate *carnelevale*, cited by Carpentier from a document of 1130.

The history of the word is illustrated by the parallel med. L. name *carnem laxare* (cited by Carpentier from a charter of 1050), corresp. to It. **carne lasciare* 'leaving or forsaking flesh', whence, app. by contraction, the modern *carnasciale* = *carnevale*. *Carnem laxare*, **carne lasciare*, **carnelasciale, carnusciale*, form a series exactly parallel to **carnem levare*, **carne levare, carnelevale, carnevale*. Other names having a similar reference are, for Shrove Tuesday, *carnicapium* 'flesh-taking', and *carnivora* [*dies*]; for Lent or its beginning, *carnipriviem, carnispriviium, privicarnium*, f. *privare* to deprive. In all these, 'flesh' means *meat*, and that it was understood to mean the same in *carnelevare* is shown by many early quotations in Du Cange; e.g. in a MS. of beg. of 13th c. 'De ludo Carnelevar. In Dominica dimissionis carnis,' etc. Also 'Dominica ad vel ante carnes tollendas'; with which compare the Spanish *carnes tolendas*, 'shrove-tide'. We must therefore entirely reject the suggestion founded on another sense of *levare*, 'to relieve, ease', that *carnelevarium* meant 'the solace of the flesh (i.e. body)' before the austerities of Lent. The explanations 'farewell flesh, farewell to flesh' (from L. *vale*) found already in Florio, and 'down with flesh!' (from F. *aval*), belong to the domain of popular etymology. (Cf. Dr. Chance in *N. & Q.* s. 7 IV. 82.)]

1. The season immediately preceding Lent, devoted in Italy and other Roman Catholic countries to revelry and riotous amusement, Shrove-tide; the festivity of this season. *High Carnival*: the revelry of the Carnival at its height.

Originally (according to Tommaseo and Bellini) 'the day preceding the first of Lent'; commonly extended to the last three days or the whole week before Lent; in France it comprises *Jeudi gras, Dimanche gras, Lundi gras* and *Mardi gras*, i.e. Thursday before Quinquagesima, Quinquagesima Sunday, Monday, and Shrove Tuesday; in a still wider sense it includes 'the time of entertainments intervening between "Twelfth-day" (or Boxing Day) and Ash Wednesday' (Littré).

Mid Lent Carnival (*Carnaval de la mi-carême*): a festivity held on the middle Thursday of Lent, to celebrate the fact that the first half of that season is at an end.

[a. OF. *carole*, also *kar-*, *char-*, *quar-*, *quer-*, *kerole*, *-olle*, in all the senses in which it occurs in Eng. (exc. 3); still in French dialects. (Marne *carole* dance, fête, joy; Swiss Rom. *coraula*, *coraulo*, round dance, dance-song, *coraul* ball, round dance (Godef.), Pr. and It. *carola*; Old Pr. also *corola*. The ulterior etymology of OF. *carole* and its accompanying vb. *caroler*, is uncertain; nor is it clear whether the vb. or the sb. takes priority etymologically. There are many indications that the first syllable had originally *ca-* (see Diez, 1878, p. 539, and cf. the Swiss and Breton forms); hence Romanic etymologists generally agree with Diez, in seeking the etymology in the Gr.-L. *chorus*, and its derivatives *chorĕa*, *choraules*, etc.: cf. esp. 'corolar *vel* coreiar, *coreas ducere*' quoted by Diez from Faidit *Gram. Prov.*, of 13th c. Wackernagel would take the vb. (coraulare '*conculcare*' to tread, dance, Ugutio) as a derivative of the sb. *coraula*, *choraula*, *choraules*, the fluteplayer who accompanied the chorus dance, and the sb. as a derivative of the vb. Another conjecture, assuming 'ring' to be the original sense of the sb., has proposed as its source L. *corolla* 'little crown, coronet, garland'. In any case, a Celtic origin is out of the question: Welsh *carol* (Christmas) carol, and vb. *caroli* to sing carols, are from English (Rhŷs), and Breton *koroll* dance, *korolli* to dance, *koroller* dancer, are from French. The arrangement of the senses here followed is tentative.]

Carry (kæ'ri), *v.* Forms: 4-5 carie, carye, cary, 5-6 carrie, 5- carry. [a. ONF. *carie-r*, mod.Pic. *carrie-r* = Central F. *charier, charrier* :—late L. *carricāre* to cart, convey in a car, f. *carr-us* CAR.

An earlier L. *carricare* in sense of 'load', became *carcare, cargare*, whence OF. *charchier, chargier*: see CHARGE. After this, was formed a new *carricāre* in sense of 'transport in a cart', which gave OF. *carier, charier.* Ultimately therefore *carry* has the same etymology as CARK, CHARGE, and CARGO.]

From the radical meaning which includes at once 'to remove or transport', and 'to support or bear up', arise two main divisions, in one of which (I.) 'removal' is the chief notion, and 'support' may be eliminated, as in 4, 5, and several of the fig. senses; while in the other (II.) 'support' is the prominent notion, and 'motion' (though usually retained) may entirely disappear. Cf. 'Do not leave the carpet-bag here; carry it up stairs', with 'Do not drag it along the floor; carry it'. For the former *take* is now largely substituted.

I. To transport, convey while bearing up.

Carsay, carsey, obs. ff. of KERSEY.

Carse (kāis, Sc. kɛrs). *Sc.* Forms: 4 kerss, 6 cars, 7– carse. [Of uncertain derivation, but perhaps the same word as *carres, carrs, cars*, pl. of CARR *sb.*[2] fen, low wet land.

This suits the sense: the early quotations speak of the *kerss* as full of pools and mires: Trivet describes the Carse of Falkirk in time of Edwd. I, as *loca palustria* (Jam.). The suppression of the vowel of the plural is phonetically regular, and the retention of the (s) sound instead of its change to (z) is seen also in *pence, dice, mice, truce* (the latter also, like *carse*, made into a singular). Cf. also the change of *Pieres, Peres* to *Piers, Pierce*. The difficulty is that no early examples of *kerris* or *carres* are found in Sc.; in Barbour the word is already *kerss*. The Welsh *cors* 'marsh' suits the sense, but presents a difficulty in the vowel, as well as in the geographical localization of the word.]

The stretch of low alluvial land along the banks of some Scottish rivers:

'Thus all the flat lands, on the north side of Tay, between Perth and Dundee, are called *the Carse of Gowrie*; those on the Forth, *the Carse of Stirling*, and *the Carse of Falkirk*' (Jam.). The name appears to have originally referred to their wet fenny character, but is now associated with their rich fertility.

Cart (kāɪt), *sb.* Forms: 3–7 carte, (3 karte, 3–4 kart), 6 (charte), *Sc.* cairt, 3– cart. [OE. had *cræt* neut., pl. *cratu*, app. related to Du. *krat* neut. 'hind part of a cart' (which is, however, only mod. Du. and suspected to be of recent adoption). Some compare OHG. *cratto, crezzo*, masc., MHG. *kratte, kretze* (m. and f.) basket, hamper, panier, mod.G. dial. *krätze* fem., basket (cf. CRATE), and suppose that OE. *cræt* was prop. a cart of basket-work, but of this there is no actual evidence. ON. had *kart-r* masc. 'cart', generally considered to be cognate with the OE. word; and since the ME. was always *cart(e*, and never *crat*, its direct source appears to have been the ON., rather than the OE. word.

If ME. *cartle* had merely arisen by metathesis of *r* from OE. *cræt*, we should expect some overlapping of forms as in the case of *brid, bird*; one may note, however, that OE. *cræt-wæn* exists in mod. Welsh as *cartwen*. *Cart* has entered from Eng. into most of the Celtic langs.; but is there palpably a foreign word.]

L. *carrūca* (f. *carr-us* CAR) was originally 'a sort of state coach or chariot'; this sense is still found anno 700 'carruca in qua sedere consuevi' (see Diez); but in Gaul it was early applied to the wheel-plough, in which sense *carruca*, *carruga*, *carrua* appear in the Salic and Allemannic Laws. Cf. the s.w. Eng. *plough* = 'wagon'.]

A measure of land, varying with the nature of the soil, etc., being as much as could be tilled with one plough (with its team of 8 oxen) in a year; a plough-land.

The acreage of the carucate varied according to the system of tillage. If the land lay in three arable common fields the carucate, according to *Fleta*, contained 180 acres; 60 for fallow, 60 for winter corn, and 60 for spring corn. If the land lay in 2 fields the carucate consisted of 160 acres, 80 for fallow, and 80 for tillage. Commonly only the land under plough in any one year was reckoned, the fallow being thrown into common pasturage. Hence in ancient deeds the normal carucate is either 120 acres or 80 acres by the Norman number (5 score to the hundred) and 144 acres or 96 acres by the English number (6 score to the hundred).—*Rev. An instrument of torture, said to have been invented by the 'Master of Orkney' in 1596. Its action appears to have been forcibly to draw together the body and limbs of the victim, and hold him in this cramped position.

(An unlucky 'shot' at a derivation, hazarded by Dr. Jamieson ['It might be deduced from Teut. *kausse*, *kousse* (Fr. *chausse*) a stocking, and *lauw* tepidus q. the warm hose'], although absolutely pre-scientific and worthless, is the sole foundation for the imaginary description of this 'frightful machine', adopted by Mr. Lecky, *Hist. Rat.* (1865) I. 142. The assumption that it was in legal use is equally baseless; all the references are to legal proceedings *against* those who were charged with applying this cruel torture.)

It is mainly to the second of these, or cases of conduct, that CASUISTRY is understood to refer.

9. *Grammar.* [L. *cāsus*—used to translate Gr. πτῶσις lit. 'falling, fall'.

By Aristotle πτῶσις was applied to any derived, inflected, or extended form of the simple ὄνομα or ῥῆμα (i.e. the nominative of nouns, the present indicative of verbs), such as the oblique cases of nouns, the variations of adjectives due to gender and comparison, also the derived adverb (e.g. δικαίως was a πτῶσις of δίκαιος), the other tenses and moods of the verb, including also its interrogative form. The grammarians, following the Stoics, restricted πτῶσις to nouns, and included the nominative under the designation.]

a. In inflected languages, one of the varied forms of a substantive, adjective, or pronoun, which express the varied relations in which it may stand to some other word in the sentence, *e.g.* as subject or object of a verb, attribute to another noun, object of a preposition, etc. b. But as many modern languages have nearly or quite lost these variations of form, *case* is sometimes loosely used for the *relation* itself, whether indicated by distinct form or not.

Thus, by a mixture of the two notions, in modern English, substantives are commonly said to have three cases, *nominative, objective*, and *possessive*; the two former being merely relations, and the latter entirely formal; in modern French to have two (or three) cases, *cas-sujet* and *cas-régime* (the latter subdivided into *direct* and *indirect*), which are in the noun merely relations, while of the pronouns some retain only one case-form, some have four (e.g. *ils, les, leur, eux*). Thus also, in quot. 1824, 'nominative' case is loosely used for *subject*.

Cassock (kæ·sək), *sb.* Forms: *α.* 6–7 cassacke, 7 cassack, (cass-, casaque); *β.* 6 cassoke, cassocke, (8–9 cassoc), 6– cassock. [a. F. *casaque* 'a cassocke, mandilion, long coat', 16th c. in Littré, (corresp. to Sp. and Pg. *casaca* 'a souldiers cassocke, a frock, a horsemans coat', Minsheu, It. *casacca* 'a frocke, a horse-mans cote, a long cote; also a habitation or dwelling' Florio). The military use is the original; the ecclesiastical use appears to have arisen in English, in the 17th century.

If the It. is the original, and *casacca* 'cassock' the same word as *casacca* 'dwelling' (see above), then it is a deriv. of *casa* house (as if 'a garment that covers like a house': cf. CASULE, CHASUBLE); but the identification is doubtful. The *Dict. de Trevoux* suggests that *casaque* is a variant of *Cosaque* Cossack, from whom the military cassock might take its name. Lagarde (*Götting. Gelehrte Anzeiger*, 15 Apr. 1887, 238) maintains that F. *casaque* is a back-formation from *casaquin* (by incorrectly viewing the latter as a dimin. form), and that *casaquin*, It. *casacchino*, was a corruption of Arab. كزغند *kazāyand*, ad. Pers. كزغند *kazhāyand*, a padded jerkin, or acton, f. كژ *kazh*= كج *kaj* raw silk, silk floss + اغند *āyand* stuffed. The word *kasagân* actually occurs in MHG. as 'riding-cloak' ('reitrock' Schade), and *gasygan* in OF. as padded jerkin or vest' (Godef.), but the relation of these to *casaquin* and *casaque* has yet to be settled.]

3. A garment worn by clergymen.

a. A long close-fitting frock or tunic worn by Anglican clergymen, originally along with and under the gown; but, in recent times, also under the shortened surplice, and sometimes by 'High-Church' clergymen, like the *soutane* of Roman Catholic priests, apart from these vestments, as a kind of ecclesiastical garb. Also, sometimes worn by vergers, choristers, and others engaged in ecclesiastical functions. See quots.

In this sense, which appears to date from the Restoration, it seems to be the continuation of the scholar's cassock, in sense 2; it had probably some reference to the canon of 60 years before, requiring clergymen not to appear in public 'without coats or cassocks' (see sense 2).

Casuistry (kæˑziu̯ˌistri, kæˑʒʲu̯-). [f. CASUIST + -RY. App. at first contemptuous = 'the casuist's trade'; cf. *sophistry, Jesuitry, foolery.* A term of more respectful application would prob. have been *casuism*: Fr. has *la casuistique*, as if 'casuistics'.]

The science, art, or reasoning of the casuist; that part of Ethics which resolves cases of conscience, applying the general rules of religion and morality to particular instances in which 'circumstances alter cases', or in which there appears to be a conflict of duties. Often (and perhaps originally) applied to a quibbling or evasive way of dealing with difficult cases of duty; sophistry.

1725 POPE *Rape Lock* V. 122 Cages for gnats..and tomes of casuistry. 1736 BOLINGBROKE *Patriot.* (1749) 170 Casuistry..destroys, by distinctions and exceptions, all morality, and effaces the essential difference between right and wrong. 1836 *Penny Cycl.* VI. 359 The science of casuistry..has been termed not inaptly the 'art of quibbling with God'. 1841 EMERSON *Lect. the Times* Wks. Morals* II. vi. 247 Granted that duties may clash, or that general rules may be modified by special circumstances, it is surely most important to determine beforehand, as far as we can, what those circumstances are, and, in the case of clashing duties, which should yield to the other. Now this, and this alone, is the task which 'Casuistry' or the attempt to 'resolve cases of conscience' proposes to itself.

Cat (kæt), *sb.*[1] Forms: 1 catte, catt, 2-7 catt, 4-6 catte, (3-7 kat, 6 katte), 1- cat. [The ME. and mod. *cat* corresponds at once to OE. *cat* and ONF. *cat*. The name is common European of unknown origin: found in Lat. and Gr. in 1-4th c., and in the modern langs. generally, as far back as their records go. Byzantine Gr. had *κάττα* (in Cæsarius *c* 350) and later *κάττος*, as familiar terms = *αἴλουρος*; mod.Gr. has *γάτα* from Ital. Latin had *catta* in Martial *a* 100, and in the Old Latin Bible version ('*Itala*'), where it renders *αἴλουρος*. Palladius, ? *c* 350, has *catus*, elsewhere scanned *cātus* (Lewis and Short), and prob. in both cases properly *cattus*. From *cattus*, *catta*, came all the Romanic forms, It. *gatto*, Sp., Pg. *gato*, Cat. *gat*, Pr. *cat*, ONF. *cat*, F. *chat*, with corresponding feminines *gatta, gata, cata, cate, chate, chatte*. The Teutonic forms recorded are OE. *cat, catt*, ON. *kött-r* (:—*kattuz*) masc., genit. *kattar* (Sw. *katt*, Da. *kat*); also OE. *catte* ? fem., WGer. **katta* (MLG. *katte*, MDu. *katte, kat*, Du. *kat*, also Sw. *katta*), OHG. *chazzâ* (MHG., mod.G. *katze*) fem.; OHG. had also *chataro*, MHG. *katero, kater*, mod.G. and Du. *kater*, he-cat. The OTeut. types of these would be **kattuz* masc., **kattôn-* fem., **kat(a)zon-* masc.; but as no form of the word is preserved in Gothic, it is not certain that it goes back to the OTeut. period. It was at least WGer. *c* 400–450. It is also in Celtic: OIr. *cat* masc., Gael. *cat* com., Welsh and Cornish *cath* f., Breton *kaz*, Vannes *kac'h* m. Also in Slavonic, with type *kot-*: OSlav. *kot'ka* f., Bulg. *kotka*, Slovenish *kot* m., Russ. *kot* m., *kotchka, koshka* f., Pol. *kot* (*koczur* m.), Boh. *kot* m., *kotka* f., Sorabian *kotka*; also Lith. *kate*; Finnish *katti*.

(These forms indicate extensive communication of the word, but do not fix the original source. History points to Egypt as the earliest home of the domestic cat, and the name is generally sought in the same quarter; Martial's attribute might incline us to a Slavonic or Teutonic origin: *c* 75 MARTIAL xiii. 69 Pannonicas nobis nunquam dedit Umbria cattas. *a* 250 *Baruch* vi. 21 ('Itala') Noctuæ et hirundines et aves, similiter et cattæ [LXX. καὶ οἱ αἴλουροι].

Catacomb (kæ·tăkōum). [a. F. *catacombe,* ad. It. *catacomba* (= Pr. *cathacumba,* Sp. *catacumba*) :—late L. *Catacumbas,* a name of which even the original application is uncertain: see below.]

1. A subterranean place for the burial of the dead, consisting of galleries or passages with recesses excavated in their sides for tombs.

a. Representing the Latin *catacumbas* (*catecumpas*), or (?) *ad catacumbas,* used as early as the 5th c. in connexion with the subterranean cemetery under the Basilica of St. Sebastian, on the Appian Way, near Rome, in or near which the bodies of the apostles Peter and Paul were said to have been deposited: this is the only sense in which the word occurs in English before the 17th c.

Wiseman *Fabiola* II. ii. The cemetery of St. Sebastian [among] other names had that of *Ad Catacumbas*: the meaning of this word is completely unknown. 1870 W. B. Marriott *Test. Catacombs* 1 Catacombs—this name properly applies only to one particular cemetery beneath the church of St. Sebastian.

b. In later times applied (in the plural) to all the subterranean cemeteries lying around Rome (which, after having been long covered up and forgotten, were fortuitously discovered in 1578). In the singular applied to a single crypt or gallery.

1662 J. Bargrave *Pope Alex. VII* (1867) 121 Ten miles, almost, round about Rome, under the vineyards and cornfields, are hollow caves, streets, rooms, chappells, finely painted, etc., which is called Rome underground, or the Catacombs. 1683-4 Robinson in *Phil. 2. In a wider sense, applied to any subterranean receptacle of dead bodies, as the catacombs of Paris, which are worked-out stone-quarries (see quot.); also *fig.* place of entombment of former races of animals, etc.

1836 *Penny Cycl.* VI. 359/2 The catacombs of Paris could not be called catacombs with any propriety until very recent times, when, by a decree of the French government, all the churchyards were emptied of their contents, and the skulls and bones sent to the spacious subterranean quarries, where they are now arranged in a manner that is grotesquely horrible. 1845 Darwin *Voy. Nat.* iv. (1879) 80 This point being a perfect catacomb for monsters of extinct races.

3. *transf.* A place arranged with crypts and recesses, like the catacombs.

[Note.—The name regularly applied to the Roman catacombs during the first four centuries, when they were in use, as well as during the succeeding four or five centuries, while they were still objects of attention and care, was *cæmētērium. Catacumbas, catecumbas,* appears in the 4th (?), 5th, and following centuries only in connexion with the name of the cemetery of St. Sebastian on the Appian Way, which is distinguished as *Cœmeterium Catacumbas,* or shortly *Catacumbas.* In other cases *Catacumbas* appears to be used as name of the locality, or perhaps of the part of the Appian Way, in which this cemetery lay. The earliest instances are:

?*a* 400 *Inscr.* in *Orelli* 4575 Comparaui..uiuus in catacum[b]as a[d] lumenarem a [f]ossore.. 411 [or ?354] *Martyrology* (Bucher *ad Canon. Tertio Kalendas Iulij, Petri in Catacumbas et Pauli Ostiense. *a* 600 (*List of Cemeteries*) Cimeterium catecumbas ad St. Sebastianum Via Appia. *a* 600 Greg. Magn. *Epist.* iv. Ind. xii. Ep. 30 In loco qui dicitur catacumbas collocata sunt. *a* 700 *Imperia Cesarum* (Eccard *Corp. Hist. Med. Æv.* I. 31) Maxentius [A. D. 311] Termas in Palatio fecit et Circum in Catecumpas. *c* 705 Bæda *De Sex Æt. Mund.* ad ann. 4327 Damasus..fecit basilicam..aliam in catacumbas ubi jacuerunt corpora sancta apostolorum Petri et Pauli. *a* 900 Anastasius *Hadrian* I. § 343 In loco qui appellatur catacumbas ubi corpus beati Sebastiani martyris cum aliis quiescit. *a* 1300 *De Mirabil. Romæ,* Cœmeteria Calisti juxta Catacumbas.

The evidence does not settle the disputed question whether the name originally belonged to the cemetery, or (as the majority of investigators now appear to think) to the locality. Some of the other cemeteries were named from their locality, e. g. *Ostiense, Ad Septem Columbas, Ad Duas Lauros* (names of taverns), but most from a personal name as *Calisti, Domitillæ, Cyriacæ.* The word *catacumbas* was in later times treated as an acc. pl., with nom. sing. *catacumba*; but in earlier use it appears to be invariable. To account for this, some have surmised that the full name was *Ad Catacumbas,* others that it was itself a Greek phrase κατὰ κύμβας. The recorded meanings of Gr. κύμβη are 'the hollow of a vessel, a drinking vessel, cup, or bowl (whence a possibility that κατὰ κύμβας was the name of a tavern); a boat, L. *cymba*; a knapsack, wallet'. But the question how a Greek phrase was likely to become the name of something near Rome, when it is not known what that thing was, is manifestly futile; still more profitless are conjectures that the word might contain the Greek preposition combined with a Latin, Sabine, or Celtic word or root, which may be seen in works or articles treating of the Catacombs. There appear to be no examples of the application of the word to the other Roman subterranean cemeteries in ancient times, though *catacumba* is apparently used by Joannes Diaconus (9th c.) of those of Naples: see Du Cange. But the actual extension of the name belongs to modern times, since the discovery of 'Subterranean Rome'.]

This sense was also original in Eng.; and continued in Scotch to 16th c. (see sense 1); but for this the central OF. *chacier, chace* was adopted in form *chace-n* by 1300, and *catch* was gradually confined to its present sense, which is unknown to French and the other langs., but is that of OE. *læcc(e)an*, ME. *lacchen, lachen*. With the latter, *cachen* seems to have been very early treated as synonymous; and at length entirely took its place. Hence, app. the pa. t. *cahte, cauhte, cauȝte, caught*, like *lahte, lauhte, lauȝte, laught*, which was used along with the regular *cacched, catchte, catched*, and during the present century has superseded it in literary use (though *catched, cotched* is still widely prevalent in dial. or vulgar speech).]

The direct representatives of the latter are Pg. *cacho*, F. *cachou*; the exact history of the form *catechu* is obscure. See also the other names CACHOU, CASHOU, CATE[2], CUTCH.]

A name given to several astringent substances, containing from 40 to 55 per cent. of tannin, which are obtained from the bark, wood, or fruits of various Eastern trees and shrubs. They are used in medicine, and in tanning, calico printing, and dyeing.

The name was apparently first applied (in Europe) to the pale sort called also GAMBIER, obtained from the leaves and young shoots of *Uncaria* or *Nauclea Gambir*; this is the *Catechu* of Pharmacy (*Syd. Soc. Lex.*): when first brought to Europe in the 17th c. it was from its appearance believed to be an earth, and called *Terra Japonica*. The dark sort obtained from the wood of *Acacia Catechu*, is more commonly called CUTCH; of this *Pegu Catechu* is a good variety. (There is doubt whether the connexion with Japan assumed in the name *terra japonici* is not purely imaginary, and owing to the Burmese name for *Acacia Catechu, sha-pin, shabin*, or *shaben*.)

1. *Logic* and *Metaph.* A term (meaning literally 'predication' or 'assertion') given to certain general classes of terms, things, or notions; the use being very different with different authors.

a. Originally used by Aristotle, the nature and meaning of whose ten categories, or predicaments (as, after the Latin translation, they are also called)

has been disputed almost from his own day till the present; some holding that they were 'a classification of all the manners in which assertions may be made of the subject', others that they were 'an enumeration of all things capable of being named, the most extensive classes into which things could be distributed', or again, that they were 'the different kinds of notions corresponding to the definite forms of existence'. Hence many criticisms of Aristotle's classification, with modifications of it, or the substitution of new 'categories,' proposed by the Stoics, and later philosophers, according as they viewed them logically or metaphysically.

The ten 'categories' or 'predicaments' of Aristotle were: 1 Substance or being (οὐσία), 2 Quantity, 3 Quality, 4 Relation (πρός τι), 5 Place, 6 Time, 7 Posture (κεῖσθαι), 8 Having or possession (ἔχειν), 9 Action, 10 Passion.

1588 FRAUNCE *Lawiers Logike* I. ii. 10 b, These generall heades of argumentes .. sometimes .. are called Categoremes, and the handling or discoursing of the same Categories. 1677 GALE *Crt. Proem 4 Objective Ideas or real Beings, considered in Logic, are reduced by the Aristoteleans .. to Ten Categories or Predicaments. 1724 WATTS *Logic* (1736) 25 The famous ten Ranks of Being, called the ten Predicaments or Categories of Aristotle, on which there are endless Volumes of Discourses formed by several of his Followers. 1849 ABP. THOMSON *Laws Th.* § 97 Logicians in almost every age have endeavoured to frame schemes of classification in which things should be arranged according to their real nature. (ed. 4) 49 Existence itself, that so-called highest category of thought. *c* 1866 GROTE *Aristotle* I. 144 We may illustrate the ten Categories of Aristotle by comparing them with the four Categories of the Stoics. *Ibid.* 149 Galen also recognizes five Categories; but not the same five as Plotinus. 1882 E. WALLACE tr. *Aristotle's Psychol.* 5 The first point .. is to determine in which of the higher classes soul is included, and what is its generic character—whether, in other words, it is an individual thing and real substance, or a quality, or a quantity, or any other of the categories, as they have been distinguished. 1883 LIDDELL & SCOTT *Grk. Lex.* s. v., The categories are a classification of all the manners in which assertions may be made of the subject.

b. Kant applied the term to: The pure *a priori* conceptions of the understanding, which the mind applies (as forms or frames) to the matter of knowledge received from *sense*, in order to raise it into an *intelligible* notion or object of knowledge.

1829 SIR W. HAMILTON *Disc.* (1853) 26 The Predicaments of Aristotle are .. objective, of things as understood; those of Kant subjective, of the mind as understanding .. In reality, the whole Kantian Categories would be generally excluded from those of Aristotle .. as determinations of thought, and not genera of real things. 1856 MEIKLEJOHN tr. *Kant's Crit. Pure Reason* 64 In this manner there arise exactly so many pure conceptions of the understanding, applying *a priori* to objects of intuition in general, as there are logical functions in all possible judgments .. These conceptions we shall, with Aristotle, call categories, our purpose being originally identical with his, notwithstanding the great difference in the execution. Table of the Categories. 1. *Of Quantity*: Unity, Plurality, Totality. 2. *Of Quality*: Reality, Negation, Limitation. 3. *Of Relation*: Of Inherence and Subsistence (*substantia et accidens*), of Causality and Dependence (cause and effect), of Community (reciprocity between the agent and patient). 4. *Of Modality*: Possibility—Impossibility, Existence—Non-existence, Necessity—Contingence. 1877 E. Cater-cousin (kē·tə,kʌ·zn). [derivation and original literal meaning doubtful.

The ordinary conjecture (since Skinner) has been that *cater* is F. *quatre* four, used in the sense of *quatrième* fourth, 'from the ridiculousness of calling cousin or relation to so remote a degree' (Johnson); but etymologically this receives no support from French (where *quatre-cousin* would be absurdly impossible), nor from the Eng. use of *cater* in CATER *sb.*[2], CATER *adv.*, or CATERCAP, nor is there any trace of the word having ever been *quater, quatre,* or *quarter*; moreover Johnson's explanation seems hardly to suit early usage, however it may have influenced later use.

Fewer difficulties appear in supposing *cater* to be the Eng. CATER *sb.*[1] or *v.*[1], and taking *cater-cousins* as originally those who were 'cousins' by being catered for or boarded together, or by catering for each other; cf. *companion* lit. 'fellow bread-eater'. It would be easiest perhaps to account for such a formation from the verb, but as there is not at present evidence that this was in use so early as 1547, we must consider the possibility that the derivation was *cater* sb. + *cousin*, perh. as = 'catering cousin': cf. esp. *foster-father, -mother, -brother, -sister*, etc.]

A term formerly applied to persons on terms of 'cousinship', intimate friendship, or familiarity with each other, who, though not cousins by blood, were 'next cousins' in some respect, or perhaps called each other 'cousin' from some community of life, interests, or employments (cf. COUSIN, to CALL *cousins* 17 b.). *To be* (or *be made*) *cater cousins*: to be good friends, to be on the best of terms. It still survives as a traditional expression (chiefly from Shakspere), but without any distinct notion of its intrinsic meaning.

1547 LATIMER *Serm. & Rem.* (1845) 425 Corrupt nature [is] against the will of God; and so to be natural may seem to be cater-cousin, or cousin-germain with to be diabolical. 1583 STUBBES *Anat. Caterpillar (kæ·tərpilər). Forms: 5 **catyrpel, 6 -pyllar, catirpiller,** 7 **catterpiller,** 7–8 **-pillar,** 6– **caterpiller, -pillar.** [*Catyrpel*, in Promp. Parv., may be merely an error of the scribe for *catyrpelour* (or *-er*); Palsgr. has the full form. Generally compared with the synonymous OF. *chatepelose*, lit. 'hairy or downy cat' (cf. the Sc. name *hairy woubit* 'woolly bear'), of which the ONF. would be *catepelose*. This is a possible source, though no connexion is historically established: the final sibilant might be treated in Eng. as a pl. formative, and the supposed sing. *catepelo* would be readily associated with the well-known word *piller, pilour*, pillager, plunderer, spoiler. This is illustrated by the fact that in the fig. sense, *piller* and *caterpiller* are used synonymously in a large number of parallel passages (see sense 2). The regular earlier spelling was with *-er*; the corruption *caterpillar* (? after *pillar*), occasional in 17th c., was adopted by Johnson, and has since prevailed.

(Some think the word a direct compound of *piller*. The giving to hairy caterpillars a name derived from the cat, is seen not only in the French word cited, but also in Lombard. *gatta, gattola* (cat, kitten), Swiss *teufelskatz* (devil's cat); cf. also F. *chenille* (:—*canicula* little dog), Milan. *can, cagnon* (dog, pup) a silk-worm (Wedgwood). Cf. also *catkin*, F. *chaton*, applied to things resembling hairy caterpillars.)]

1. The larva of a butterfly or moth; sometimes extended to those of other insects, especially those of saw-flies, which are also hairy.

Caterwaul (kæ·tərwɔl), *sb.* [see next.; the sb. is app. from the vb.] The cry of the cat at rutting time. Also *transf.* Any similar sound.

HOLMES *Poems* 125 The lovely caterwaul, Tart solo, sour duet, and general squall,—These are our hymn. 1880 MARK TWAIN *Tramp Abr.* I. 215 That variegated and enormous unanimous caterwaul.

Caterwaul (kæ·tərwɔl), *v.* Forms: 4–5 caterwrawe, 4–6 -wawe, 6 katerwaue, 6–8 catterwawl, -wall, 8 -wowl, 7–9 -waul, 7 -waule, caterwaule, -wawl, catterwrall, (catwrall), 8 catterwaw, 6– caterwaul. [This occurs in the various forms *caterwrawe, -wawe, -wrawl(e, -wawle, -waul.* The second element appears separately in the vb: *wrawen* used (of a cat) by Caxton, *wrawlen, wraule* of cats, squalling children, etc., frequent in Googe, Tusser, Holland, and others from *c* 1570 to 1625 or later; *waul* is of doubtful occurrence before 1600. The precise relation between these is not clear; all are prob. imitative of the sound, but whether the forms in *-l* are formed on the others (cf. *mew, mewl*, Ger. *miauen, miaulen*, and F. *miauler*) is doubtful.

Forms akin to *wrawe, wrawl* in other langs. are Da. *vraale*, Sw. *vråla*, to roar, bellow, bawl, Norw. dial. *råla*, in the north of Norway 'to cry as a cat', LG. *wralen* (Bremen Wbch.) said of a stallion in heat, also of an ill-behaved man, 'to be noisy and unruly'; cf. also Bavarian *rauen, rauelen* 'to howl, whine', said esp. of the cat, also Swiss *rauen, räulen*, the latter esp. of the cry of the cat when in heat. (*Wr-* becomes *r-* in HG.: an OE. **wreawlian*, ME. *wrawlen* would answer exactly to Bav. *rauelen*.) The sense of the Ger. words also comes near the Eng., since both in Chaucer and in the transf. use of the 16–17th c., the word was spec. applied to the cry and behaviour of the cat when 'after kind'. As to the *-waul* form, an exact LG. counterpart *katterwaulen* '(von Kindern) schreien und heulen wie streitende Katzen' is given by Schambach, *Göttingisches Grubenhagen'sches Idiotiken* 1858, but its history is uncertain; cf. also Icel. *vála* to wail.

Cater is, of course, connected with CAT, but the form is not certainly explained: some would see in it a parallel to Du. and Ger. *kater* male cat, which may once have existed in OE.; but the word appears too late to prove this. Others would take *-er* as some kind of suffix or connective merely.]

4. *Catholic Epistle*: a name originally given to the 'general' epistles of James, Peter, and Jude, and the first of John, as not being addressed to particular churches or persons. The second and third epistles of John are now conventionally included among the number.

It is not certain that this was the original sense of ἐπιστολὴ καθολική, since some early writers appear to use it in the sense 'genuine and accepted' (see CANONICAL): but the attribute has been understood in the sense 'encyclical' or 'general' since the 10th or 11th c.

T.* (1881) 395 It may be inferred that the seven Catholic Epistles were formed into a collection at the close of the third century.

II. In ecclesiastical use.

The earlier history of this lies outside English, and may be found in such works as Smith's *Dict. Christian Antiq.* or in Lightfoot's *Ignatius* I. 398–400, 605–607; II. 310–312. 'Η καθολικὴ ἐκκλησία 'the catholic church' or 'church universal', was first applied to the whole body of believers as distinguished from an individual congregation or 'particular body of Christians'. But to the primary idea of extension 'the ideas of doctrine and unity' were superadded; and so the term came to connote the Church first as orthodox, in opposition to heretics, next as one historically, in opposition to schismatics. Out of this widest qualitative sense arose a variety of subordinate senses; it was applied to the faith the Church held, to particular communities or even individual members belonging to it, and especially in the East, to cathedrals as distinguished from parish churches, then later to parish churches as opposed to oratories or monastic chapels. After the separation of East and West 'Catholic' was assumed as its descriptive epithet by the Western or Latin Church, as 'Orthodox' was by the Eastern or Greek. At the Reformation the term 'Catholic' was claimed as its exclusive right by the body remaining under the Roman obedience, in opposition to the 'Protestant' or 'Reformed' National Churches. These, however, also retained the term, giving it, for the most part, a wider and more ideal or absolute sense, as the attribute of no single community, but only of the whole communion of the saved and saintly in all churches and ages. In England, it was claimed that the Church, even as Reformed, was the national branch of the 'Catholic Church' in its proper historical sense. As a consequence, in order to distinguish the unreformed Latin Church, its chosen epithet of 'Catholic' was further qualified by 'Roman'; but see sense 7. On this analogy ANGLO-CATHOLIC has been used by some, since about 1835, of the Anglican Church.

5. *Catholic Church, Church Catholic*: the Church universal, the whole body of Christians.

1559 *Injunctions by Queens Majestie* D iv, Ye shall praye for Christes holy Chatholique church, that is, for the whole congregation of Christian people, dispearsed throughout the whole worlde, and specially for the Church of England and Irelande. 1560-61 *Scotch Conf. Faith* xvi, Whiche Kirk is Catholik, that is universall, becaus it conteanes the Elect of all aiges, all realmes, nationis, and tounges, be thai of the Jewis or be thai of the Gentiles, who have communioun and societie with God the Father, and with his Sone Christ Jesus. 1630 PRYNNE *Anti-Armin.* 129 There is a holy Catholicke Church, to wit, the whole company of Gods Elect. 1645 USSHER *Body Div.* (1647) 187 The Catholick Church, that is, God's whole or universall Assembly. 1651 BAXTER *Inf. 6. As an epithet, applied to the Ancient Church, as it existed undivided, prior to the separation of East and West, and of a church or churches standing in historical continuity therewith, and claiming to be identical with it in doctrine, discipline, orders, and sacraments. (*a.*) After the separation, assumed by the Western or Latin Church, and so commonly applied historically. (*b.*) After the Reformation in the 16th c. claimed as its exclusive title by that part of the Western Church which remained under the Roman obedience (see 7); but (*c.*) held by Anglicans not to be so limited, but to include the Church of England, as the proper continuation in England, alike of the Ancient and the Western Church.

(Whatever the application, the implied sense is 'the Church or Churches which now truly represent the ancient undivided Church of Christendom'.)

7. As applied (since the Reformation) to the Church of Rome (*Ecclesia apostolica catholica Romana*) = ROMAN CATHOLIC, q.v. (Opposed to *Protestant, Reformed, Evangelical, Lutheran, Calvinistic*, etc.)

ROMAN CATHOLIC is the designation known to English law; but 'Catholic' is that in ordinary use on the continent of Europe, especially in the Latin countries; hence historians frequently contrast 'Catholic' and 'Protestant', especially in reference to the continent; and, in familiar non-controversial use, 'Catholic' is often said instead of Roman Catholic.

See also CHATTEL. [ME. *catel*, a. ONF. *catel* (= central OF. *chatel*, Pr. *captal, cāpdal*) :—late L. *captāle*, L. *capitāle*, neuter of the adj. *capitālis* head-, principal, CAPITAL, used subst. in mediæval times in the sense 'principal sum of money, capital, wealth, property'; cf. mod. Eng. CAPITAL = stock in trade. Thus Papias has '*capitale*, caput pecuniæ, capitis summa', the Catholicon '*capitale*, pecunia'. Under the feudal system the application was confined to movable property or wealth, as being the only 'personal' property, and in English it was more and more identified with 'beast held in possession, live stock', which was almost the only use after 1500, exc. in the technical phrase 'goods and catells (cattals)' which survived till the 17th c. In legal

Anglo-French, the Norman *catel* was superseded at an early period by the Parisian *chatel*; this continued to be used in the earlier and wider sense (subject however to legal definition), and has in modern times passed into a certain current use as CHATTEL, so that the phrase just cited is now also since 16th c. 'goods and chattels'. Down to 1500 the typical spelling was *catel*; in the 16th c. this became *cattel, cattell*; only since 1600, and chiefly since 1700, spelt *cattle*. As this spelling is never found in earlier use, and, hence, never in the earlier sense, it would be possible to treat this sense as a separate word *Catel*, property; but on the other hand the modern sense has all the forms *catel, cattel(l, cattle*, according to date, and the history is better elucidated by treating the word as a historical whole. CHATTEL, however, as a distinct modern form and sense, is dealt with in its own place.

OF. (besides the *ch-* forms, for which see CHATTEL) had, according to dialect and date, the forms *catel, katel, cathel, cateul, cateil*. Hence the ME. variants *cathel, catail, -ayl*. The Norman word was again latinized as *catellum, catallum*, the latter esp. current in English law-Latin, whence the forms *catall, cattall*, so frequent in 15-16th c., esp. in the legal phrase 'goods and cattals'.]

† 2. As an *individual sing.* = CHATTEL, with *collective pl.* originally in association with 'goods' or other pl. noun. *Obs.*

This use was evidently derived from law-Latin, in which *catallum, catalla* were so used. Cf. *cum suis catallis omnibus mobilibus*, cited by Du Cange, from *Leg. Edw. Conf.* p. 894, and the phrase *melius catallum* the best chattel, *droit de meilleur catel*, the heriot, *ibid.*

3. Often used in the phrase *Goods and cattel*; later more frequently *goods and cattels*, of which the extant form is *goods and chattels*: see CHATTEL.

As in this sense the form *cattals* is specially prevalent, it looks like a translation of a legal Anglo-Lat. *bona et catalla*. Du Cange quotes from *Leg. Edw. Conf.* c. 35 Cum decimis omnium terrarum, ac bonorum aliorum sive catallorum.

4. A collective name for live animals held as property, or reared to serve as food, or for the sake of their milk, skin, wool, etc.

The application of the term has varied greatly, according to the circumstances of time and place, and has included camels, horses, asses, mules, oxen, cows, calves, sheep, lambs, goats, swine, etc. The tendency in recent times has been to restrict the term to the bovine genus, but the wider meaning is still found locally, and in many combinations. As this sense was originally comprised under 1, distinct instances before 1500 are scarce.

Caucus (kɔ̄·kəs). [Arose in New England: origin obscure.

Alleged to have been used in Boston U. S. before 1724; quotations go back to 1763. Already in 1774 Gordon (*Hist. Amer. Rev.*) could obtain no 'satisfactory account of the origin of the name'. Mr. Pickering, in 1816, as a mere guess, thought it 'not improbable that *caucus* might be a corruption of *caulkers*', the word "meetings" being understood'. For this, and the more detailed statement quoted in Webster, there is absolutely no evidence beyond the similarity of sound; and the word was actually in use before the date (1770) of the event mentioned in Webster. Dr. J. H. Trumbull (*Proc. Amer. Philol. Assoc.* 1872) has suggested possible derivation from an Algonkin word *cau-cau-as'u*, which occurs in Capt. Smith's *Virginia* 23, as *Cau-cawassough* 'one who advises, urges, encourages', from a vb. meaning primarily 'to talk to', hence 'to give counsel, advise, encourage', and 'to urge, promote, incite to action'. For such a derivation there is claimed the general suitability of the form and sense, and it is stated that Indian names were commonly taken by clubs and secret associations in New England; but there appears to be no direct evidence.]

1. In *U. S.* A private meeting of the leaders or representatives of a political party, previous to an election or to a general meeting of the party, to select candidates for office, or to concert other measures for the furthering of party interests; opprobriously, a meeting of 'wire-pullers'.

1763 J. ADAMS *Diary* Feb. Wks. II. 144 (Bartlett) This day learned that the caucus club meets, at certain times, in the garret of Tom Dawes. 1788 W. GORDON *Hist. Amer. Rev.* I. 240 (Bartlett) More than fifty years ago, Mr. Samuel Adams's father, and twenty others .. used to meet, make a caucus, and lay their plan for introducing certain persons into places of trust and power. 1809 KENDALL *Trav.* I. xv. 174 A caucus is a political, and what is in practice the same thing, a party meeting; but it is not a popular meeting .. It is in caucuses that it is decided, for whom the people shall be instructed to vote, and by what course of politics the party may be secured. 1818 SYD. b. in reference to other countries.

1886 *New Zealand Her.* 1 June 4/5 The Auckland members are to have a caucus this morning, to consider what action should be taken in connection with the appropriation.

2. In English newspapers since 1878, generally misused, and applied opprobriously to a committee or organization charged with seeking to manage the elections and dictate to the constituencies, but which is, in fact, usually a representative committee popularly elected for the purpose of securing concerted political action in a constituency.

It was first applied in 1878, by Lord Beaconsfield and the *Times* newspaper, to the organization of the Birmingham Liberal 'Six Hundred', and thence to those which were speedily formed on its model elsewhere; the implication being that this was an introduction of 'the American system' into English politics, which deserved to be branded with an American name. But the name was grotesquely misapplied: in American use, *a caucus* is a meeting; English newspapers apply *the caucus* to an organization or system. Such organizations have since been, in one form or another, adopted by all parties; and *caucus* is now a term which partizans fling at the organizations of their opponents, and disclaim for their own.

1878 *Times* 31 July 10/4 The policy of the politicians of the Midland capital will bring upon us the 'caucus' with all its evils..The introduction and progress of the 'caucus' system among us. J. This is strengthened by the fact that *calciāre* in med.L. interchanges with *calcāre* to 'tread, stamp', and that *calcāta, calcātum* are actually found instead of *calciāta, calciātum*; also *calcāgium* for the *droit de chaussée* or road-toll. Cave (kēiv), *v.*3 [Usually *cave in*: in meaning identical with the dial. Calve *in* (q. v.), and perh. phonetically descended from it (cf. *ha'penny* from *half-penny*); but even if so, it has certainly been associated with other senses of *cave*; cf. esp. Cave *v.*1 'to hollow', Cave *v.*2 'to fall all of a heap'.

(All the earliest instances of *cave in*, in print, are from America, and its literary use appears to have arisen there: but, as the word is given as East Anglian by Forby, 1830, and is widely used in Eng. dialects, it is generally conjectured to have reached the U.S. from East Anglia. Its history requires further investigation.)]

Cavey, Cavialy, var. of Cavie, Caviare.

Cavezan, -zon, obs. ff. Cavesson.

Caviar, caviare (see below). Forms: 6 chauiale, 7 cavialy; 6 cavery, 7 caveari, caveary, (cauearee), cauiarie, 7–8 caviary; cavear(e, caveer, (7 gaueare, cavere, cavajar, cavayer, 8 cavier, kavia); 7– caviare, caviar. [Of uncertain origin, found in Turkish as خاویار *khāvyār*; in Italian in 16th c. as *caviale* (whence 16th c. F. *cavial*, Sp. *cavial*, 16th c. Eng. *cavialy*), also as *caviaro*, whence F. and Pg. *caviar*.

('It has no root in Turkish, and has not the look of a Turkish word. Redhouse in his MS. Thesaurus marks it as Italian-Turkish, looking upon it as borrowed from Italian.' Prof. Ch. Rieu.)

In English occurring with great variety of spelling and pronunciation, after Italian and French, with various native modifications. Originally, *caviā·ly, -ā·le, -ā·rie, -ā·re* was of 4 syllables, with accent on the penult, as in Italian, but was sometimes reduced to 3 syllables, by slurring *-iā-*, as *-yā-*, and later with the accent shifted to the first syllable. As early as 1625, the final *-e*, in *caviare, caveare*, was often dropped in speech, and later also in writing, giving *caviar, caveat* (cf. F. *caviar*), pronounced (kavi¡ā·ɹ, -ē·ɹ), sometimes (kav¡yā·ɹ, -yē·ɹ), and perh. also with accent shifted (ka·viaɹ, -iəɹ, -yəɹ). About 1700, prevalent forms were *caveā·r, caveē·r*, riming with *prepare*, and *cheer*; the latter pronunciation appears to have been the only one in common use in the end of the 18th c., for Walker, 1797, who spells *caviare* and pronounces (kăvī·ɹ), says,

'Either the spelling or the pronunciation of this word should be altered..the ancient spelling seems to have been *Caviare*; though Buchanan and Bailey, in compliance with pronunciation, spell it *Caveer*, W. Johnston *Cavear*, and Ash, as a less usual spelling, *Cavier*.'

Smart (1846) pronounces (kav¡yē·ɹ), Webster has the accent on first syllable (kæ·vi¡āɹ); prevalent pronunciations in England at present are kavi¡ā·ɹ, kav¡yā·ɹ, which are etymologically the best, also (kavi¡ē·ɹ), and as in Smart. Shakspere's *caviā·rie*, and Swift's *caveē·r*, are recognized archaic forms.]

Cay (kē[i], kī). Also **KEY** [2], q. v. [ad. Sp. *cayo* shoal, rock, barrier-reef, OF. *cay, caye* sand bank or bar, in med.L. *caium*. Diez cites from the pseudo-Isidore Gl. *kai* 'cancellæ', *kaij* 'cancelli', bars, barriers; and refers it to Celtic *cae*, pl. *caiou* 'munimenta' in Oxf. glosses. Cf. Welsh *cae* hedge, Breton *kaé* embankment. The sense with which it was applied to the reefs, was thus that of 'bars, barriers'. Orig. the same word as QUAY, q. v. In 17th c. Eng., *key* was pronounced *kay* (kē[i]), whence, by assimilation, *cay* was also written *key*, spelling now usual in the West Indies.

Cayenne (kē[i]e·n, kai[i]e·n). Forms: 8 **cayan, kayan, kian, kyan**; also **chian, chyan.** [In its actual form, referred to Cayenne, the chief town of French Guiana (founded 1634); but this is app. only popular etymology, as the name in Tupi (Brazilian) is given by Martini, p. 419, as *kyýnha, quiýnha*, also *quiya*. Gul. Piso, *De Indiæ utriusque Re Nat. et Med.* (1658) has '*qviya* sive *Piper Brasiliensis*. The name *Cayenne Pepper* is unknown to French, and the Ger. *Cayenne-pfeffer* is prob. from Eng. (The somewhat archaic pronunc. (kəian·) survives from the earlier form.)]

(Also called *Cayenne pepper*). A very pungent powder obtained from the dried and ground pods and seeds of various species of *Capsicum*, esp. *C. annuum* and *C. frutescens*, of South America; used as a condiment in cookery and as a stimulant in medicine; formerly called Guinea pepper.

Cayman, caiman (kē[i]·măn). Forms: 7 **caimain,** 9 **kay-, kaiman.** [In Sp. and Pg. *caiman*, F. *caïman*, app. from Carib. Martini, *Galibi* (Mainland Carib) *Dict.* has '*cayman* crocodilus'; Rochefort (*c* 1660) *Iles Antilles* 225 'le crocodile que les insulaires nomment *cayeman*. Littré cites Carib *Acayoüman* 'crocodile', from *Dict. Fr. Caraïbe* of P. Raymond-Breton, 1661.

Very positive statements, however, assert the word to be African, from Congo; Pigafetta 1598 (*trans.* in Yule) says 'In this river (Zaire or Congo)..mighty great crocodiles, which the country people there call *caiman*.' And Cuvier *Règne Animal, Sauri* (transl.) IX. 196 says 'The slaves on their arrival from Africa, at sight of a crocodile, gave it immediately the name of *cayman*. It would appear from this that it was the negroes who spread the name throughout America'. But as Bontius 1631 (cited by Yule) says Cayman is the name 'per totam Indiam' (i.e. the East Indies), the name appears to be one of those like *anaconda* and *boa, boma*, which the Portuguese or Spaniards very early caught up in one part of the world, and naturalized in another.]

(recorded of date 1428) and the derived *ceiling* (1380), *ceiled*, with the cognate sb. found as CYLL in sense of 'canopy' *c* 1500, *celure*, found as *syllure, sylure* ? *a* 1400, the derivation is doubtful. The group is not very old in Eng., and traces of it in French are scanty.

Three sources have been suggested: (1) L. *cēlāre*, F. *celer* (11th c. in Littré) to hide, conceal, cover up; (2) L. *cælāre* to carve, engrave in relief; (3) L. *cælum* sky, vault of heaven. If L. *cēlāre* could be shown to have acquired in late L. or Romanic the simple sense of 'cover', it would suitably explain the Eng. words in all their uses; but such is not the case, and in particular, F. *celer* does not appear to approach the required sense. In favour of L. *cælāre* (cf. *cieler* Godef.) there are certainly early quotations (see sense 1, and CEILING 1) in which 'carve', 'carving', is a possible sense; but nothing of the kind occurs under CELURE, and if *ceil* ever meant 'carve' this sense evidently soon entirely gave way to one congruous with that of CELURE. On the other hand we have the known fact that med.L. *cælum*, It. *cielo*, F. *ciel*, acquired the sense of 'canopy, vault, roof, tester of a bed, etc.'; and there are traces of a derived vb. *cælāre* to canopy or vault, whence *cælātum, cælātūra*, in senses identical with or derived from *cælum*. Difficulties are that while *ceil* v. and *celure* were so common in 15–16th c. English, and can hardly be connected with L. exc. through Fr., their occurrence in OF. itself is extremely rare: a single instance of *cielee* pa. pple. (with variants *celee, chelee, couverte*) has been noted in Chrestien de Troyes, Ywain (ed. Förster 964). It is possible that **celeūra, *celure*:—L. *cælātūra* was common in Anglo-French, and thence passed into English, but the whole subject remains for the present beset with conflicting difficulties; the apparently certain point being that we cannot separate the Eng. words from *cælum, ciel*, canopy. Celluloid (se·liŭloid), *sb.* [loosely f. CELLUL-OSE *sb.* + -OID.]

An artificial substance composed chiefly of cellulose, and much used as a substitute for ivory, bone, coral, etc., in the manufacture of knife-handles, piano-keys, billiard-balls, etc.

Invented in America, and first patented in Gt. Britain in April 1871, as a material for dental plates. In its manufacture the cellulose is first reduced by acids to pyroxyline (gun-cotton), camphor is then added, and the mixture subjected to immense hydraulic pressure. It may then be moulded by heat and pressure to any shape, and it becomes hard, elastic, and capable of taking on a fine finish. (The Specification of Hyatt's first British patent (1871, No. 1025) does not contain the name.)

Celt[1] (selt). Also **Kelt** (kelt). [a. F. *Celte*, ad. L. *Celta*, sing. of *Celtæ*, in Gr. Κελτοί. (A later Gr. Κέλται, in Strabo, etc., was probably from L. *Celtæ.*) For conjectures as to a possible derivation, see Rhŷs, *Celtic Britain* (1884) 2.]

1. *Hist.* Applied to the ancient peoples of Western Europe, called by the Greeks Κελτοί, Κέλται, and by the Romans *Celtæ.*

The Κελτοί of the Greeks, also called Γαλάται, *Galatæ*, appear to have been the Gauls and their (continental) kin as a whole; by Cæsar the name *Celtæ* was restricted to the people of middle Gaul (*Gallia Celtica*), but most other Roman writers used it of all the Galli or Gauls, including the peoples in Spain and Upper Italy believed to be of the same language and race; the ancients apparently never extended the name to the Britons.

This obstinate war between the insular Britons and the continental Celts. 1839 THIRLWALL *Greece* VIII. 411 The Celts advanced within five or six days' march of his camp.

2. A general name applied in modern times to peoples speaking languages akin to those of the ancient Galli, including the Bretons in France, the Cornish, Welsh, Irish, Manx, and Gaelic of the British Isles.

This modern use began in French, and in reference to the language and people of Brittany, as the presumed representatives of the ancient Gauls: with the recognition of linguistic affinities it was extended to the Cornish and Welsh, and so to the Irish, Manx, and Scottish Gaelic. CELTIC has thus become a name for one of the great branches of the Aryan family of languages (see CELTIC); and the name Celt has come to be applied to any one who speaks (or is descended from those who spoke) any Celtic language. But it is not certain that these constitute one race ethnologically; it is generally held that they represent at least two 'races', markedly differing in physical characteristics. Popular notions, however, associate 'race' with language, and it is common to speak of the 'Celts' and 'Celtic race' as an ethnological unity having certain supposed physical and moral characteristics, especially as distinguished from 'Saxon' or 'Teuton'.

Celt[2] (selt). [ad. (reputed) Lat. *celt-es* (or ? *celte*, ? *celtis*) 'stone-chisel, sculptor's chisel'.

The received or Clementine text of the Vulgate has in *Job* xix. 24 *Stylo ferreo, et plumbi lamina, vel celte sculpantur in silice*; but, though this is the reading of some MSS., the Codex Amiatinus and others read *certe* 'surely'. Some hold *certe* to be the original reading (representing לעד of the Heb., 'for ever' of the Eng., which is not expressed by the LXX), and take *celte* as an erroneous alteration of some kind; others think *celte* a genuine word, and suppose that it was originally a marginal gloss on *stylo*, which was erroneously taken into the text, and subsequently altered to *certe* by some one to whom it was perhaps unfamiliar. But the independent evidence for a word *celtes* or *celte* is slender. The 'vetus inscriptio Romæ', cited by Du Cange, is a late forgery, and *celte* in it is app. from the Vulgate. One of the miscellaneous undated glosses in the Glossarium C. Labbæi (Stephens' *Thesaurus*) is 'Γλυφεῖον *Celte*', but this is prob. later than the Vulgate variant reading, and may be founded on it. Later also than the Vulgate is the gloss on Sidonius *Epist.* vii. 3 (*Anecd. Oxon., Class. Ser.* I. v. p. xi. and 50) '*Hoc caelum*, ut *hoc celte, celtis*, instrumentum est quo caelatur,' which shows the ordinary explanation of the word in the Middle Ages. *Celtes* occurs however in two charters given in Lacomblet *Urkundenbuch für die Geschichte des Niederrheins*, II. 331 (anno 1267) 'meatum seu transitum..ex fovea capituli Coloniensis, ad educendum celtes seu fracmina lapidum per viam eandem', and II. 382 (anno 1319) 'quod nulli frangentes lapides seu alii quicumque proicient seu mittent celtes seu alia fragmenta in ipsam foveam'. Here the meaning is 'pieces or fragments, ? chips', of stone; the relation of this to the Vulgate word is uncertain. In Welsh, *maen cellt*, with the assumed meaning 'flint stone', occurs in the *Triads of Wisdom* (16-17th c.), in *Myv. Arch.* III. 246; and *cellt* is also said to be (or to have been) known in Breconshire, in the sense of 'shell' of a nut, etc.; but the status of the word is altogether obscure, and its alleged senses help the question little. In any case, *celtes*, whatever its orgin and character, was assumed, on the authority of the Vulgate, to be a genuine word; and, as such, the term was admitted into the technical vocabulary of Archæology, about 1700. 'In Beger's *Thesaurus Brandenburgicus* 1696 a bronze celt adapted for insertion in its haft is described under the name of *celtes*' (Ll. Jewitt *Half-hours among Eng. Antiq.* 1877, p. 32). Apparently the general adoption of the word by antiquaries was influenced by a fancied etymological connexion with CELT[1]: thus the *Grand Dict.* of Larousse explains it as 'sorte de hache *gauloise* en bronze'.]

An implement with chisel-shaped edge, of bronze or stone (but sometimes of iron), found among the remains of prehistoric man. It appears to have served for a variety of purposes, as a hoe, chisel, or axe, and perhaps as a weapon of war. 3. A hundredth. ? *Obs.*

1685 J. WARNER in Boyle *Hist. Air* xvii. (1692) 134 The Mercury subsided 9 Cents of an Inch.

4. In various monetary systems the term used for the hundredth part of a standard unit.

a. In United States of America (also in Canada, British Guiana, and many other British colonies): The hundredth part of a dollar; a copper (or nickel) coin of this value, nearly equal to a half-penny of Great Britain. (Often taken as the type of the smallest current coin; whence such expressions as 'I don't care a cent for'.)

Apparently the first mention of *cent* occurs in the letter of Robert Morris to the U.S. Congress in 1782, suggesting that the American monetary unit should be the $1\frac{1}{440}$ of a dollar, and that a coin equal to 100 of these or $\frac{5}{7}$ of a dollar (about 3¾*d.* Eng.) should be made, and called a *cent*. This proposal was not taken up; but it may have suggested the name 'cent' for the coin = $\frac{1}{100}$ of a dollar, ordained by the Continental Congress on 8 August 1786 (see quot.). There exists, however, an American copper token, commonly called the *Washington cent*, bearing on one side a head in a wreath with the legend 'Washington and Independence', and date '1783'; on the other the words 'One Cent', and the exergue $\frac{1}{100}$. But it is not certain that 1783 represents the date of issue; this token was probably struck as late as 1789, the date 1783 being merely that of the conclusion of the War of Independence. Previously to the coining of the cent, or $\frac{1}{100}$ of a dollar, and down to 1789, accounts were kept in dollars and ninetieths, a relic of the time when the Spanish piastre or piece of eight reals, called by the colonists 'dollar', was worth 7*s.*6*d.* (90 pence) of the money of account of Maryland and Pennsylvania. (From notes communicated by the late Prof. J. W. Andrews of Marietta Coll., Ohio.)

1. A plant, of which the medicinal properties were said to have been discovered by Chiron the centaur; two species were distinguished, *Centaurion majus*, and *C. minus* (also *lepton*). Cerite[1] (sīᵊ·rəit). *Min.* [Named 1804: f. as CERIUM + -ITE.] A very rare mineral, the hydrated silicate of Cerium (of which it is the chief source).

Found as yet only in an abandoned copper mine at Bastnäs near Riddarhyttan in Westmannland, Sweden, in compact fine-grained masses of indistinct blackish-red colour, and also in short six-sided prisms. It contains also the rare metals Lanthanum and Didymium, and generally a small quantity of Yttrium. Called by Klaproth *ochroite.*

Cerium (sīᵊ·riŏm). *Chem.* [Named by Hisinger and Berzelius, along with its source *cerite,* after the planet CERES, whose discovery (in 1801) was then one of the most striking facts in physical science. The ending is as in *potassium* and other names of metals. Klaproth, in 1807, changed the names to *cererium* and *cererite* 'lest they should appear to be derived from *cera, κηρός* wax', but the change was not accepted (Dana).]

One of the chemical elements: a rare metal, discovered in the mineral called CERITE; it has the colour and lustre of iron, and takes a high polish, which it retains in dry air, but in moist air it becomes covered with coloured films like heated steel; it is malleable and ductile, of specific gravity 6·63 to 6·73. Atomic weight 138; symbol Ce.

Wks. 1872-5 II. 408 He doth still continue certain to the former resolutions. 1690 Locke *Hum. Und.* II. xxi. § 48 The certainer such Determination is, the greater is the Perfection.

6. By a change of construction, a person or agent is said to be *certain to do* a thing, when the fact that he will do it is certain. The use thus attaches itself logically to 1, and in such a sentence as 'the town is certain to be taken', *certain* might be referred to that sense.

1653 Walton *Angler* ii. 49 I'l be as certain to make him a good dish of meat, as I was to catch him. 1868 E. Edwards *Raleigh* I. xxiii. 537 The truth that honest and unselfish labour is just as certain to grow as it is to live. *Mod.* We are certain to meet him in the course of our rambles.

II. 7. Used to define things which the mind definitely individualizes or particularizes from the general mass, but which may be left without further identification in description; thus often used to indicate that the speaker does not choose further to identify or specify them: in *sing.* = a particular, in *pl.* = some particular, some definite.

Different as this seems to be from sense 1, it is hardly separable from it in a large number of examples: thus, in the first which follows, the *hour* was quite 'certain' or 'fixed', but it is not communicated to the reader; to him it remains, so far as his knowledge is concerned, quite indefinite; it may have been, *as far as he knows*, at any hour; though, *as a fact*, it was at a particular hour. (The absolute uses are in B 4-6.)
